

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1-17 (Canceled).

18. (New) A method in a computerized system for building a custom specification and a quote for a piece of equipment, comprising:

electronically soliciting from and selecting by a user a general specification of the equipment;

electronically soliciting from and selecting by the user different upfit options for various components for building the custom specification for the equipment; and

automatically generating and presenting to the user a subtotal cost for the various components of the equipment and a total cost for the custom specification for the equipment.

19. (New) The method of claim 18, further comprising:

interactively selecting by the user a different option of the components; and

automatically updating and presenting to the user the different option and associated subtotal cost and total cost for the custom specification for the equipment.

20. (New) The method of claim 19, further comprising automatically updating the options and costs after an interrelated option has been selected.

21. (New) The method of claim 20, wherein the options for various components include pre-engineered specifications.

22. (New) The method of claim 21, further comprising generating a report showing the components selected, the subtotal cost of the components, and the total cost of the equipment.
